LearnID is an easy and safe log-in system that gives you access to My Studieshop, so you can check all your orders, view your invoices, return items, etc. Your LearnID account is unique to you and not connected to a particular school or study direction. Which means you won't ever need to create a new one, for example if you change direction or schools. You just keep on using the same account.

Creating a new account

If you've never ordered from Studieshop.be before, then you should create an account.

TIP:

register with the e-mail address used most often in your family for official communication! As that way, you're sure you'll always receive all the information about orders and payments. Please note that the correctness and use of your email address during the year is your responsibility!

Whom are you ordering for?

Once you're logged in, we want to know whom you are ordering for. Students older than 18 can order for themselves, but those under 18 best ask a parent/guardian to order for them. Students under 18 ordering for themselves anyway, are asked for their parents' email address at a later stage in the order process.

Once you've entered whom the books are for, you will be redirected to the order list. You may need to tick a box for this!

18 ALREADY? OR YOUNGER OR OLDER?

At this stage, students ordering for themselves will be asked how old they are. If they are under 18, they will need to enter a valid email address of one of their parents, so we can send them all the financial details.

5. DELIVERY AND PAYMENT

Packages to be delivered at school cannot be changed. However, if your school has opted for home delivery, you can choose to have your package sent to your home address or a different delivery address (like your grandparents' house). Your school's address cannot be used as an alternative delivery address! Also remember that company addresses are not a good idea, as PostNL sometimes deliver outside of office hours or at weekends.

TRACKING YOUR PACKAGE

You'll receive an email with a track & trace code as soon as your order has been collected by PostNL, so you can trace your package from the time it's dispatched at our distribution centre to the second it's delivered on your doorstep or at an alternative address.

If you're not at home, PostNL will try and drop it off with a neighbour. Please note that if this isn't possible, it will be delivered at a collection point where it will stay for one week. You will receive a message with the address. If you haven't collected your package after one week, it will be returned to Studieshop.be and you'll need to order again.
